

Carbon Black Dispersions for Paints and Coatings

Solution Dispersions™ provides a wide variety of off-the-shelf carbon black dispersions formulated for the paint and coatings industries. Our products range from a general-purpose anionic black-to-medium color with strong tint, to high-color automotive quality. Several of our popular dispersions, selected from our comprehensive line of standard dispersions are shown below.

In addition to carbon black dispersions for paints and coatings, we provide dispersions for a wide variety of other industries...so no matter what industry you are in, Solution Dispersions has the right product for you - if we don't have it on the shelf, we can formulate it.

For more information or to obtain a quote, contact us through our office or on the Internet at www.solutiondispersions.com.
